Abstract

Short introduction to subject of the paper . . .

1 Introduction

Make it possible for all to write documents with LaTeX!

1.1 more introduction

Go more in detail ...

1.1.1 even more introduction

come to the point ...

Paragraphs A paragraph is small but

Subparagraphs subparagraphs are smaller!

Outline First we start with a little example of the article class, which is an important documentclass. But there would be other documentclasses like book **??**, report **??** and letter **??** which are described in Section **??**. Finally, Section **??** gives the conclusions.

2 Documentclasses

- article
- book
- report
- letter

1. article
2. book
3. report
4. letter

article Article is ...

book The book class ...

report Report gives you ...

letter If you want to write a letter.

3   tabular

No paper without a tabular!

first column	second column	third column	fourth column
l stand for left	c for center	r for right	and p for predefined size

4   some math

Math in text is called in line math just put $ character around the math think. Like $a^2 + b^2 = c^2$. It looks better if you use this

$$a^2 + b^2 = c^2$$

5   Conclusions

There is no longer LaTeX example which was written by [?].
